EDUCATION

Mumbai University
Bachelor of Commerce

CGPA: 7.5/10

INTERNSHIP

Client Relations Executive | HR Gupta & Company

- Assisted clients throughout the trademark registration process, providing guidance on procedures and documentation.
- Responded to client inquiries, explained legal benefits, and helped resolve concerns related to intellectual property rights.
- Gained experience in client communication and understanding of intellectual property regulations.

PROJECTS

Car Rental Web Application

Technologies Used: Java, Spring Boot, ReactJS, Tailwind CSS, JWT, MySQL

- Developed a comprehensive full-stack car rental platform enabling users to browse, search, and book vehicles easily. Implemented secure user registration and login using JWT authentication, ensuring data protection and safe access for all users.
- Implemented advanced car browsing and booking features, allowing users to filter cars by type, availability, and location. Enhanced user engagement by creating a seamless and intuitive booking process.
- Built a dynamic admin dashboard for managing car listings, user accounts, and bookings efficiently. The dashboard provides real-time updates, making administrative operations faster and more reliable.
- Designed a responsive and user-friendly UI using Tailwind CSS, making the platform visually appealing and accessible across desktop and mobile devices.
- Worked on full-stack integration, connecting frontend components with backend APIs, handling data persistence with MySQL, and ensuring end-to-end functionality.

Expense Tracker Web Application

Technologies Used: Java, Spring Boot, ReactJS, JavaScript, Tailwind CSS, MySQL

- Implemented secure user authentication using JWT, protecting user accounts and sensitive financial data while enabling safe access to the application.
- Developed comprehensive transaction management features, allowing users to add, edit, delete, and categorize income and expenses for better financial tracking.
- Created interactive dashboards and visual summaries to help users analyze spending patterns, monitor budgets, and gain actionable insights into their finances.
- Developed a scalable backend using Spring Boot and Java, connected to MySQL for secure data management and exposed RESTful APIs for seamless interaction with the ReactJS frontend.

Chikki Shopping Website

Technologies Used: JavaScript, ReactJS

- Created a responsive e-commerce platform for Chikki products, achieving over 500 unique visitors in the first month of launch, utilizing ReactJS and Tailwind CSS for a user-friendly interface.
- Developed features such as "Add to Cart" and "Wishlist," resulting in a 20% increase in user engagement and convenience.
- Implemented product filtering options, enhancing the shopping experience for users and reducing average search time by 30%.
- Ensured cross-device compatibility, providing a seamless experience for mobile and desktop users.

CERTIFICATIONS

- **TryCatch Classes:** Full Stack Java Development
- **Sheryians Coding School:** Course has covered in depth Knowledge of HTML, CSS, Js, FramerMotion, React.js, TailwindCss

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Java

Frameworks / Technologies: React.js, Bootstrap, TailwindCss, Spring, Spring Boot, MySQL, REST APIs

Tools & Methodologies: Agile Development, GitHub, Maven, Gradle, Postman.

INTERESTS

Exploring Emerging Technology Trends, Developing Leadership Skills, Delivering Technical Presentations, Creating Innovative Solutions, Designing User-centered Interfaces, Adapting to New Tools and Methodologies, Organizing Community Outreach Initiatives
