Sunny Bhull

Full Stack Java Developer

 github | linkedin | sunnybhull95@gmail.com | +91-7710822354

SUMMARY

Full Stack Java Developer with hands-on experience in building scalable web applications using Java, Spring Boot, ReactJS, and MySQL. Skilled in creating secure APIs, responsive UIs, and full-stack integrations that deliver user-focused solutions

PROJECTS

Car Rental Web Application   **Technologies Used: Java, Spring Boot, ReactJS, Tailwind CSS, JWT, MySQL**

github.com/sunnybhull95/car-rental-fullstack-java

- Developed a full-stack car rental platform with secure JWT authentication, allowing users to browse, search, and book vehicles seamlessly.
- Built a dynamic admin dashboard for managing car listings, user accounts, and bookings efficiently. The dashboard provides real-time updates, making administrative operations faster and more reliable.
- Integrated frontend components with backend APIs and MySQL database, ensuring end-to-end functionality and reliable data persistence
- Designed a responsive UI using Tailwind CSS, providing an intuitive experience across desktop and mobile devices.

Expense Tracker Web Application   **Technologies Used: Java, Spring Boot, ReactJS, JavaScript, Tailwind CSS, MySQL**

github.com/sunnybhull95/ExpenseTracker

- Implemented secure user authentication using JWT, protecting user accounts and sensitive financial data while enabling safe access to the application.
- Developed comprehensive transaction management features, allowing users to add, edit, delete, and categorize income and expenses for better financial tracking.
- Created interactive dashboards and visual summaries to help users analyze spending patterns, monitor budgets, and gain actionable insights into their finances.
- Developed a scalable backend using Spring Boot and Java, connected to MySQL for secure data management and exposed RESTful APIs for seamless interaction with the ReactJS frontend.

Chikki Shopping Website   **Technologies Used: JavaScript, ReactJS**

github.com/sunnybhull95/MaganlalChikkiClone

- Created a responsive e-commerce platform for Chikki products, achieving over 500 unique visitors in the first month of launch, utilizing ReactJS and Tailwind CSS for a user-friendly interface.
- Developed features such as "Add to Cart" and "Wishlist," resulting in a 20% increase in user engagement and convenience.
- Implemented product filtering options, enhancing the shopping experience for users and reducing average search time by 30%.
- Ensured cross-device compatibility, providing a seamless experience for mobile and desktop users.

EXPERIENCE

Client Relations Executive | HR Gupta & Company

- Assisted clients throughout the trademark registration process, providing guidance on procedures and documentation.
- Responded to client inquiries, explained legal benefits, and helped resolve concerns related to intellectual property rights.
- Gained experience in client communication and understanding of intellectual property regulations.

EDUCATION

Mumbai University - Bachelor of Commerce.

Completed Full Stack Java Development training with hands-on projects.

CERTIFICATIONS

- **Full Stack Java Development:** TryCatch Classes (HTML, CSS, JavaScript, Tailwind CSS, MySQL, Java, Spring Boot).
- **Oracle Certified Foundations Associate, Java**: Oracle University Completed the Java Foundations learning path covering Java syntax, data types, control structures, OOP, and exception handling.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Java

Frameworks & Technologies: React.js, Bootstrap, Tailwind CSS, Spring, Spring Boot, MySQL, REST APIs

Tools & Methodologies: Agile Development, GitHub, Maven, Gradle, Postman.
